DURATION OF ETERNITY.

Various illustrations have been suggested to convey to the mind some idea of illimitable duration. It has been said, suppose one drop of the ocean should be dried up every thousand years, how long would it be ere the last drop would disappear, and the ocean bed be left dry and dusty? Far ouward as that would be in coming ages, eternity would have but commenced.

It has been said, suppose this vast globe upon which we tread were composed of particles of the finest sand, and that one particle should disappear at the termination of each million of years, oh, how inconceivably immense must be the period which would clapse before the last particle would be gone! And yet, eternity would then be in its morning twilight. It has been said suppose some little

insect, so small as to be imperceptible to the naked eye, were to carry this world by its tiny mouthfuls to the most distant star the hand of God has placed in the heavens. Hundreds of millions of years would be required for the single journey. The insect commences on the leaf of a tree, and takes its little Attractions indebted to me, will phone call load, so small that even a microscope and so the on barve cost cannot discover that It is gone, and sets out on its almost endless journey. R. C. CROCKER, After millions and millions of years have rolled away, it arrives back for its accord load. Oh, what interminable ages would clapse before the whole tree would be removed! When would the forest be gone? And the globe. Even then, eternity would not have commenced

A female philanthropist having suggested that the only way to cultivate the Indian is to "put a hoe in his hand and tell him to hoe or perish," the Louisville Courier Journal says that if this be done, in two hours it will be found that the Indian has "swapped his hoe for a quart of whisky, and is off perishing like

THE TEMPERANCE TICKET.

Elsewhere in this paper will be found the proceedings of the convention held at the tabernacle last night for the purpose of nominating candidates for municipal officers.

Mr. L. L. Haworth, who received the nomination for mayor, is one of our best known citizens, who enjoys a high reputation for integrity and uprightness. He has resided in Decatur many years. and no man can say aught against him as a neighbor, a citizen or a business man. He served one term in the city conneil, and is well posted concerning municipal affairs. He would make a good mayor.

J. B. Winebreaner, who was placed on the ticket for marshal, has been prominent in the blue ribbon movement since its first inception in Decatur, and has many friends. He is an old resident, and has served on the police force of the ardly recruits by the serviceable ring, city at various times, as a special appointee of the mayor.

Flow of Population to the West.

Pittsburg Commercial-Gazette The record of land-sales in the West and South, by the Clovernment and railroads, and the State of Texas, aggregates over 14,000,000 acres for 1878. There has been a steady flow of population to the fertile lands of the West, and great States are rapidly developing. This alone will speedly settle all labor questions, as population will soon be distributed in a way that will equalize labor to the demands of consumption. It is thought that over half a million of prople have settled on farms in the last year. In Philadelphia a colony was formed under the auspices of the Roman Catholic Church, which bought 6,000 neres of land in Virginia, and divided into eighty-eight farms, of which fortytwo are sold. Of those who colonize the West not more than one fifth are foreigners. The four fifths 'are from our towns and cities, where labor is not is demand. The result of all this farm settlement will be seen in a couple of years in the production of a vant surplus of breadstuffs. The new States of the Northwest will soon be populous and wealthy.

Manton Marble on the Stand.

And Tilden Asks to be be Called. nece Braty.

FURTHER FROM THE FAYETTE CO. TRAGEDYI

NEW YORK, Feb. 7 .- The investigation into the cipher dispatches was begun to day with Manton Marble on the stand. He said, in answer to questions: went to Florida to look after the electoral vote. I cannot say that I went under the instructions of the Democratic Committee. I did not go at the specific request of any one. I had no communication with Governor Tilden on the matter. I called on the Governor the evening that I left, and simply bade him "good-bye." On my way I met Randolph, Blair and Cox, and of course canvassed the matter with them. I think I got a cipher from Pelton at the Everett House, and used it subsequently. I neither sent to, nor received from, Tilden any telegrams. I addressed my dispatches to Pelton. My object in going to Flordia was to take care of the electoral vote; and let me here suggest that the cipher dispatches, as published in the Tribune, so far as I am concerned, are simply rubbish.

"I pon the back of a young and vigilant mule, strap a mountain howitzer, the muzzle pointing towards the tail. A O -Give the committee a general similar piece of ordnanco is fastened idea of what you did in Florida.

A .-- I have already published state-ments of what I did and did not do. One of my statements was published in January, a year ago. The other ("Rub a dub") was published in the Tribune for months. What I did not do was to buy Florida votes, and they were for sale. I would like to submit these letters, if the committee has no objec-

Mr. Stenger -I can't see the force of comes in), one gun is always pointing the objection of the member on the other side. Beyond a doubt, on the cross-examination, they will require the witness to state all that he knows about those letters, and probably make him read them verbatim.

The Chairman-Mr. Marble, have you copies of the telegrams that you sent from Florida?

A I have not. They were published at the time, and I would prefer, if you will, to take them as published.

Of the dispatch from Tallahassec November 16, beginning, "I'se 140 eipher," the witness said that he had no explanation to give, remarking, "I ity on the part of a subaltern. The must confess that there are a number of the dispatches correct.

The witness said that he would like to explain telegram No. 23. (It was a dispatch to Pelton, asking him to have son Davis, the head of the Department, documents circulated throughout the was terribly indignant, and he resolved to defend his wounded dignity. Charges ountry by the aid of the press.) and specifications were drawn up against Mr. Hiscock objected, saying : PThe

ting in what you please. The vote upon excluding documents or explanations resulted in Messrs, Hunton, Springer, and Stenger voting for

their admission, and Messrs. Reed and Hiscock against their admission. Telegrams 32 and 33 were then read Mr. Marble began to explain the latter dispatch, but Mr. Hiscock objected, saying: "I do not understand why these frequent explanations should be given.

The witness is here simply to tell us

his recollections of what occurred dur-ing this eventful period. This is simply an explanation in cipher.' Witness had no explanation regarding the dispatch to Grover, of Oregon, ask-

ing him not to issue electoral certificate to Elector. dispatch, stating he had just received a ion of the board and the Governor's certificate for two hundred thousand dollars. Didn't think he sent it. None of these pecuniary propositions were his. Merely telegraphed them as a matter of news. The half a hundred best U. S. documents telegram was substantially a correct translation. Witness thought this offer of the Returning Board was a mere device to get higher hids from the other side. Witness told them it was too high and Tilden would not enter tain it. C. E. Dyke, editor of a Democratic paper in Tallahasse, Florida, made this proposition to him. He representsent to, and certainly Mr. Tilden would

not make any such arrangement. The next telegram was Pelton's accepting the office, but advising harmony of counsel with Wooley. Witness didn't answer this, or show it to anybody. Next was Marble's telegram, "Proposition failed, and tell Tilden to saddle woman

Blackstone." Witness said this was another misropresenting guess of the Tribune's. It had no reference to any purchasing transaction. Blackstone was the name of Tilden's favorite horse, and I thought to give him a oud to chew as his master galloped around the park. Had no conversation at any time with Tilden about buying out the Electoral Board. So far as he personally know, no Democrat ever attempted to buy out any Returning Board. Had no such instructions himself. Knew nothing of the propositions to sell out. Suggested going to Florida himself; thought it

At this point the following letter was 15 GRAMERCY PARK, Feb. 7, 1879.

Hon, Eph. A. Hunton, Chairman Congres-sional Committee, Fifth Avenue Hotel: DRAR SIR:—I learn in the public Piese that It is the desire of your Committee to terminate its session in this city the cur-

ent week. I take this liberty of request rent week. I take this therry of request-ing that before you leave an opportunity be offered me of appearing before you to submit some testimony which I deem per-tinent to the inquiry with which you are charged. Yours, very respectfully, S. J. THERN.

It was resolved that Gov. Tilden should appear before the Committee at noon to-morrow, and that Mayor Cooper, in accordance with his request should be heard at half-past ten.

The examination of Marble was then continued.

Had no reference tomoney matters in telegraphing that something must be done. Did not understand that Wooley was negotiating. Had no idea on the subject of where the money would come from if any trade was made. Witness repeated he only transmitted the various propositions and had nothing to do with their consummation. He denied that Pelton had, as he testified, got a telegram from him beginning: "Tele gram here. Ward's proposition failed." After the decision of the Returning Board, Tilden met witness and denounced the whole proceedings. Is still friendly with Tilden, who does not believe witness mixed up in the affair.

At the evening session Marble testified he saw Gov. Tilden immediately upon his arrival from Florida, yut did not at that time mention to him any thing about buying and selling in the Florida business. Took pains to conceal from him the whole facts for obvious reasons. I knew he would not approve of it. Pelton gave me the cipher knew nothing of its origin. Q. - Don't you think where a person

s connected with something infamous that it would be proper to afford a clear explanation? A.-I have already published a complete denial of the whole matter. Q .- Nothwithstanding that you ad-

dressed your dispatches to 15 Gramercy Park, you never thought of Gov. Tiblen? A .- Never in the least. Q .- Do you account for this, No. 62:

Reported here that Board have given us one vote. If so, you will not need to use acceptance. Advise freely'? 1. -- I don't understand it.

Witness further testified that the impression that Tilden managed the whole campaign was a great error. Had no conversation with Pelton upon my return from Florida as to his proposition telling me to close at once. He must be mistaken in saying we had a conversation on the subject. I supposed the whole matter came from him alone and that the Democratic Committee and Tilden knew nothing of it.

This closed Marble's cross examination, and he left the witness stand, but was not discharged.

The next witness was E. I. Paris. He said: I was in Tallahassee in November, 1876. Sent dispatches from there to Col. Pelton, Mr. King and to Havemeyer. I received disputches from New York, but from whom I cannot say.

· Here witness went through the process of spelling, with the aid of a key, several dispatches. His attention was called to No. 52, dated Tallahasser, December 4, addressed to H. Have meyer, New York, and bearing no signature. In the cipher the word Match" is used and in the translation Marble." Witness, by going over the key, showed how this ripher might read Wooley" equally as well as "Marble."

After some further discussion about ciphers the Committee adjourned until to morrow.

CENTRALIA, ILL., Feb. 7 .- A most brutal and shocking double murder was ommitted at Shabonier, Fayette county, Ill., at 8 o'clock Friday night, the particulars of which are about as follows Fred Malco, a good-looking German about 25 years old, who owns a fine farm and handsome residence at Shabonier, being unhappy and dissatisfied in his domestic affairs, went to the house of August Rubine, who is the uncle of Dispatch No. 44 explained itself.
Had no recollection of the Tallahasse proposition was promptly rejected, which enraged Malco to such an extent which enraged Malco to such an extent that he went to Kinmundy, got terribly drunk, and returned to Rubine's house, and again insisted that Anna should elope with him. Mr. Rubine tried to reason with the drunken Malon, to induce him to abandon his infamous design; to go home to his family and act tike a man, and not disturb the friend-ship which had been so lasting and so warm. He replied that he would be friendly, and then drew a revolver and shot Mr. Rubine through the heart, killing him instantly. He then pursued the frightened family up stairs; dragged a younger daughter down stairs, and then shot Anna three times in the abed the canvassing board through interdomen. She lived about ten hours and
mediaries. Told Dyke he couldn't condied in intense agony. Malco than died in intense agony. Malco then mounted his large gray horse and fled. He is still at large, but is hotly pursued. The excitement is high, and there is but little doubt that he will be caught

VIENNA, Feb. 7 .- Dr. Finklenberg, German delegate to the International Sanitary Commission, will discuss with CLOAKS the Government here the measures to be adopted on the southern frontiers in case the plague roaches Roumania The Hungarian Government, with the assent of the Roumanian Government, Double will dispatch a commission to report upon the state of the public health in Roumania, Bessarabia, Bulgaria and Roumelia. The two Governments have agreed to adopted protective measures on a large scale on the Bessarabia and Transylvania frontiers, and to shift the Russian line of magazines in Roumania eastward, behind the double cordon. GORSEP ABOUT DROWN.

A fellow could hear all sorts of rumors SATI RDAY KVENING, PREKUARY & 1078. on the streets this morning about Brown. One man would say that he was here and had been seen and conversed with by several parties. He told one man that he saw Lee at Logansport several times.-Another fellow claimed that Brown was between here and Catlin, footing it home. Some other chap had heard from him at Danville; and so the matter went from lip to lip, giving more places than one the whereabouts of the accused man. It may turn out after all that Brown is a myth, and that no such chap lives or moves among men.

As was stated in these columns yesterday, Mayor Priest went to Catlin, expoeting to find Brown there, and on his arrival at that place learned that his man left the train there as was reported here, but had not been seen since. Mayor Priest returned this morning, and our reporter gathered the above facts from a personal interview with him.

Miss Fanny Bavenport, Queen of the American Stage.

On Wednesday evening of this week the eminent actress, Miss Fanny Davenport, will appear at the opera house as Kinney were put in nomination for city Rosalind, in "As You Like It." This will be Miss Davenport's first appearance | Kinney, 14. in Decatur, but her reputation as an actress of superior ability is known throughout the country. Being supported as sho is by the full Olympic Company, of St. Louis, one of the best stock companies of the country, one of the heat entertainments of the season will be given. the following is from the St. Louis Post and Dispatch:

Miss Davenport needs no assistance from the newspapers at this late day.—
Her face was her fortune from the beginning, but in addition to being the hand somest woman on the American stage at present she has added the pleasing and pre-eminent charm of being the best actress in her line that is just now before the country. She dresses well, she talks well, she plays well. Very little can be said concerning her that would not be flattering, and even the harshest critic would have to hesitate before condemning any of the little mannerisms that Miss Davenport needs no assistance would have to hesitate before condemning any of the little mannerisms that combine to give piquancy and novelty to her soting. During the week she has appeared in her favorite character, and the storms of applause that greeted her on Monday and Tuesday evenings were most enthusiastic, and must have made her feel that Ht. JOK MURPHY To NIGHT .- The "Kerry Gow" at the Opera House to night will be one of the most enjoyable affairs of the season in the amusement line. Mr. Murphy has been playing at Peoria, and we give below what the Transcript of that

Last evening Fred Marsden's great Irish drams, "The Kerry Gow," was produced by Joe Murphy and his company in Rouse's Hall. Mr. Murphy has been here before in the same play. It is well understood that in Irish character acting he is excelled by few in the country. His support this time is better even than upon his last appearance. A most difficult part is that of Mr. O'Drive. It was rendered by labe Martin ty merfaction. Luke Martin to perfection. His make-up is alone enough to excite laughter, but when he speaks that settles it. Miss Kate Fletcher's Nora Drew was very acceptably rendered. A large audience was present and gave every evidence of approbation by frequent and hearty applause.

THE A. P. C. and B. Club were tendered very enjoyable reception last evening, at the residence of Mr. and Mrs. O. B. Gorla, on East William street. There was a full attendance of the membership, and several invited friends—the Misses Donna Ulery and Minerva and Nannie Smith, of Mt. Zion, and Mollie Merriweather, who resides with her parents east of the city. Mr. and Mrs. Burt Merriweather were there, as were also a number of other young married folks. Curiosities of the Language.

The following are a few amusing examples of the "curiosities of English," as respects the change of sound produced by different consonants.

B makes road broad, turns the ears to bears, and Tom into tomb.

C makes limb climb, hanged changed, a lever clever, and transports lever to clover. D turns hear to beard, a crow to crowd.

and makes anger danger.

F turns the lower regions into flower regions.

G changes a son to song and makes one gone. Il changes eight to height.

K makes now know and eyed keyed. L transforms pear into pearl. N turns a line into linen, a crow to

rown and makes one none. P metamorphoses lumber into plum-

S turns even into seven, makes have shave and word sword, a pear a spear, makes slaughter of laughter, and curiously changes "having a hoe" to "shaving a shoe.

T makes bough bought, turns here to there, alters one to tone, changes ether to tether, and transforms the phrase, allow his own" to "tallow this town." W does well; e. g., hose are whose,

are becomes ware, on won, omen women, so sow, vie view, it makes are warm and turns a hat into what? Y turns fur to fury, a man to many,

to to toy, rub to ruby, ours to yours, a lad to a lady.
